Confirmation that Coalfield Regeneration money given to KASH has now been transferred to the Community Council.

PARK/MAIN STREET DRAINAGE

A survey of the culvert/Main Street has been carried out and there are no blockages indicated. This now just leaves the issue of the park drainage to be resolved. Cllr Barrera has been in discussion with FC regarding an upgrade to the park.

COMMUNITY CENTRE

Cllrs Pryde and Ellis have had discussions with Scott Fenton about proposed upgrades to the Centre, particularly in light of the fact two other Centres are having Wi-Fi installed. It was acknowledged that our Centre isn't very well used but it was reiterated that the acoustics are dreadful and it would be helpful if some of our planning gains could go towards resolving this.
